

GREGG BARTLETT
Senior Vice President, CMOS Business Unit

Gregg Bartlett is head of the GLOBALFOUNDRIES CMOS Business Unit, responsible for management of the company's leading-edge and mainstream products, not including ASIC and RF.

Bartlett joined GLOBALFOUNDRIES in 2009 and has served in various senior executive roles including chief technology officer and head of technology development, product management, and strategy and corporate development.

Prior to joining GLOBALFOUNDRIES, Bartlett had a 25-year career in technical and management positions at Freescale Semiconductor and its predecessor, Motorola's Semiconductor Products Sector. Bartlett served as vice president of design technology at Freescale, responsible for design methodology and the creation of design collateral for advanced solutions across networking, automotive, wireless and analog product markets. His tenure emphasized collaborative R&D efforts, including executive representation of Freescale in the Crolles 2 Alliance in Europe.

Bartlett has served as a member of the board of directors of the Semiconductor Research Corporation and Executive Committee, as well as various consortia governance committees. He holds a bachelor's degree in chemical engineering from Kansas State University.
